Quotes

"After presenting a rather effective lecture on cancer…the windshield was shot out of my car on the road back to San Francisco. The next night the glass window in the tail gate was shot out (300 miles removed from the first shooting). The police said, 'maybe someone is trying to tell you something'. The late Arthur Harris, M.D. was threatened by two men with assassination if he continued to use laetrile. Since that time we have de-centralised the work so that, if any two of us are shot out of the saddle, it will have only a slight negative effect on the program."---**Dr. Krebs**

"The slight variations in extracting procedure cause many of the amygdalin (Vitamin B-17, Laetrile) molecules to change to a form unknown to nature(:) isomers...There are ...purveyors who label their 'iso-amygdalin' products 'amygdalin' contrary to all of the recognized specs...For commercial or political purposes, they certainly cannot justify such a fallacy...This scientific heresy and commercial fraud...(is) tremendously reducing the effectiveness of amygdalin therapy. ...To mislabel iso-amygdalin as amygdalin is scientifically, medically, and morally indefensible." - **Dr. Ernst T. Krebs, Jr. discoverer of vitamins B-15 and B-17.**

"Dr. Ernest J. Krebs, Jr., (and his secretary) ...began serving a six-month prison term in May (1983) in the San Francisco County Jail. (They) were found guilty of continuing to promote the merits of Laetrile in cancer therapy in violation of terms of probation they had originally secured following their 1973 conviction." - **Choice, spring 1983.**

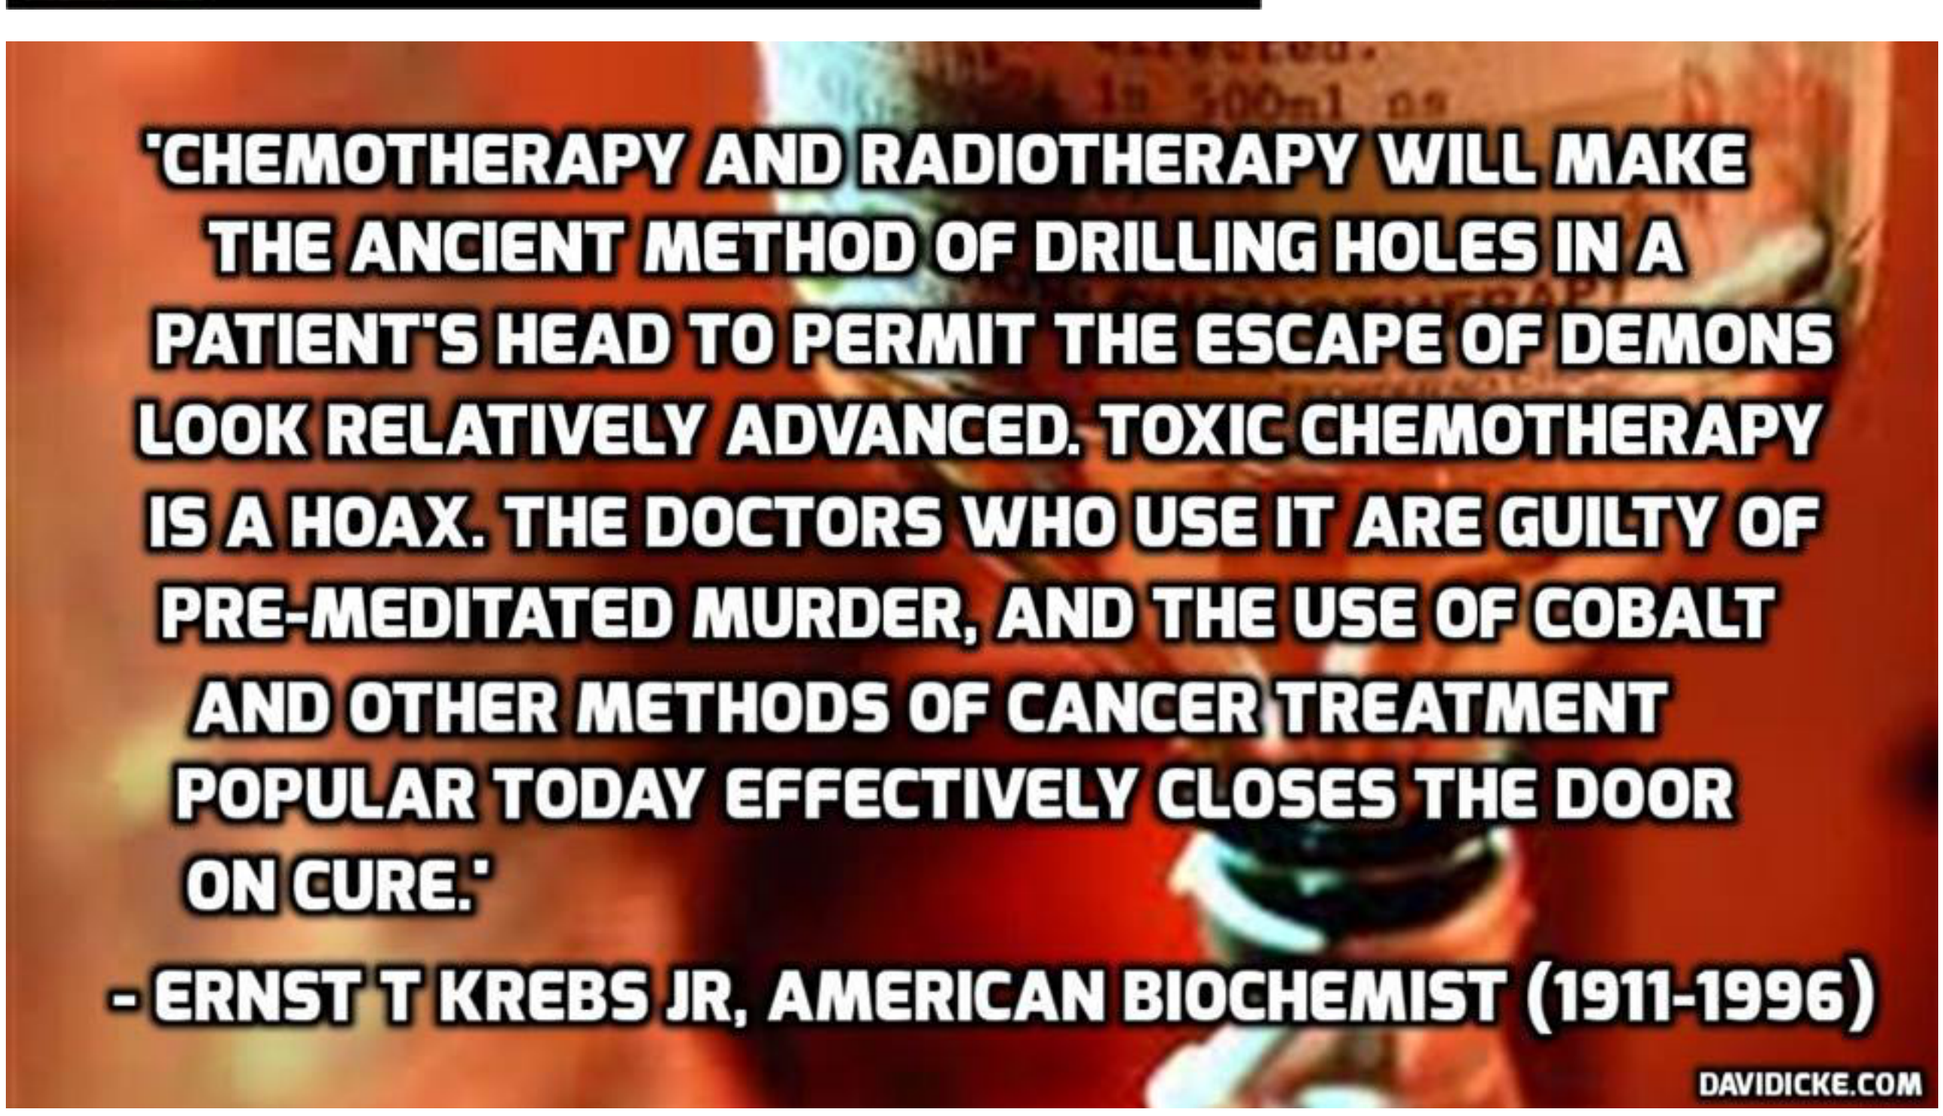
"After presenting a rather effective lecture on cancer…the windshield was shot out of my car on the road back to San Francisco. The next night the glass window in the tail gate was shot out (300 miles removed from the first shooting). The police said, 'maybe someone is trying to tell you something'. The late Arthur Harris, M.D. was threatened by two men with assassination if he continued to use laetrile. Since that time we have de-centralised the work so that, if any two of us are shot out of the saddle, it will have only a slight negative effect on the program."
Ernst T. Krebs



'CHEMOTHERAPY AND RADIOTHERAPY WILL MAKE THE ANCIENT METHOD OF DRILLING HOLES IN A PATIENT'S HEAD TO PERMIT THE ESCAPE OF DEMONS LOOK RELATIVELY ADVANCED. TOXIC CHEMOTHERAPY IS A HOAX. THE DOCTORS WHO USE IT ARE GUILTY OF PRE-MEDITATED MURDER, AND THE USE OF COBALT AND OTHER METHODS OF CANCER TREATMENT POPULAR TODAY EFFECTIVELY CLOSES THE DOOR ON CURE.'
- ERNST T KREBS JR, AMERICAN BIOCHEMIST (1911-1996)
